About INDUSTRY

Huge Potential for Indian Hand Tools, Power Tools & Fasteners Industry!

India's power tools market size is projected to grow at a CAGR of over 8.4% during 2021-27, reaching over 1.3 billion dollars in 2027.

Growing power tools sales in India is predisposed by macroeconomics, robust growth of the industrial sector, growing automotive sales, increasing consumer confidence index, the emergence of durable and cost-effective multi-functional power tools. Over the past few years, power tools have gained acceptance across all major verticals including construction, industrial, and automotive. Further, to fulfill the continuously growing demand for power tools in the country, manufacturers are coming up with innovative products which offer application-specific power tools as per end user requirements.

The industrial fasteners market in India is growing at a CAGR of 6.0% and is expected to reach a value of INR 460 Bn by 2023 majorly driven by the growing automotive industry. The market is highly fragmented with application-specific or product-specific vendors operating out of hubs in South, Western, and Northern India.
